Section 1: Important information and application range. Includes diagrams showing door height (2520 mm) and bar height (1320 mm).

Section 2: Advice for correct installation and assembly. Includes diagrams showing door height (2520 mm) and bar height (1320 mm).

Section 3: Recommendations for installation and mounting. Includes diagrams showing door height (2520 mm) and bar height (1320 mm).

Section 4: Recommendations for the installation and the mounting. Includes diagrams showing door height (2520 mm) and bar height (1320 mm).

Section 5: Force of operation and control. Includes diagrams showing door height (2520 mm) and bar height (1320 mm).

Section 6: Control/operation carried out. Includes diagrams showing door height (2520 mm) and bar height (1320 mm).

Section 7: Removal of the handle. Includes diagrams showing door height (2520 mm) and bar height (1320 mm).

Section 8: Greasing the handle. Includes diagrams showing door height (2520 mm) and bar height (1320 mm).

Section 1: Important information and application range. Includes diagrams showing door height (2520 mm) and bar height (1320 mm).

Section 2: Advice for correct installation and assembly. Includes diagrams showing door height (2520 mm) and bar height (1320 mm).

Section 3: Recommendations for installation and mounting. Includes diagrams showing door height (2520 mm) and bar height (1320 mm).

Section 4: Recommendations for the installation and the mounting. Includes diagrams showing door height (2520 mm) and bar height (1320 mm).

PANAMA PUSH

FIGURA Y

Nelle aree A e C possono essere usati gli accessori indicati di seguito, se i componenti in B hanno caratteristiche tagliafuoco (8235): 8400, 8401, 8405, 8406x, 8410, 8430, 8500, 8503, 8505, 8520, 8520A, 8525, 8526, 8527, 8529.

Items 8400, 8401, 8405, 8406x, 8410, 8430, 8500, 8503, 8505, 8520, 8520A, 8525, 8526, 8527 and 8529 can be installed in A and C, provided the components installed in B are suitable for fire applications (8235)

Les articles 8400, 8401, 8405, 8406x, 8410, 8430, 8500, 8503, 8505, 8520, 8520A, 8525, 8526, 8527 et 8529 peuvent être utilisés en A et C, à condition que les composants installés en B soient indiqués pour une application coupe-feu (8235)

En las áreas A y C pueden ser usados los accesorios 8400, 8401, 8405, 8406x, 8410, 8430, 8500, 8503, 8505, 8520, 8520A, 8525, 8526, 8527 y 8529, si los componentes de B tienen características cortafuego (8235)

- L'impegno dello scrocco nell'incontro NON deve essere inferiore di 6 mm per qualunque configurazione. Lo scrocco esce dalla cuffia per una quota NON inferiore a 10 mm per qualunque configurazione.

- The use of the latch in the keeper HAS NOT to be less 6mm for any configuration. The latch goes out from the covering part for a measure NOT less of 10mm for any configuration.

- L'utilise du pêne de la gâche NE doit pas être inférieure à 6mm pour n'importe quelle configuration. Le pêne dépasse la boîte pour une mesure PAS inférieure à 10mm pour n'importe quelle configuration.

- El uso del pestillo en el cerradero NO tiene que ser inferior a 6 mm para cualquier configuración. El pestillo sale del cofre por una cota NO inferior a 10 mm para cualquier configuración.
